Dear Ms. Newell:

RE: Review of Final Supplement to the Final Environmental Statement for the Reallocation of Storage at John Redmond Dam and Reservoir, Coffey County, KS

The U.S. Environmental Protection Agency has reviewed the Final Supplement to the Final Environmental Statement for the John Redmond Lake Reallocation of Water Supply Storage. Our review is provided pursuant to the National Environmental Policy Act 42 U.S.C. 4231, Council on Environmental Quality regulations on 40 C.F.R. Parts 1500-1508 and Section 309 of the Clean Air Act. The FSFES was assigned the CEQ number 20130039.

It appears that all of the suggestions and concerns that were presented in our DEIS comment letter of August 7, 2002, have been addressed in the FSFES. EPA thanks you for addressing these observations and recommendations. Also, the use and inclusion of Table 1-2 and associated references was very helpful; we appreciate and commend this level of clarity.

Thank you for the opportunity to review and provide comments for this project and your FSFES. If you have any questions or concerns, please feel free to contact me at 913-551-7565, or via email at tucker.amber@epa.gov.

Sincerely,
